8 JUL 1963

MEMORANDUM FOR: Chairman, COMOR

SUBJECT: Targeting for Project OXCART

1. It is anticipated that by 1 January 1964 Project OXCART will become operational. It will be necessary that the OXCART operational staff be provided a target list for which missions may be planned well in advance of that date.

2. It is appreciated that certain information must be provided the COMOR by the OXCART operations staff in order for the former to target adequately. The OXCART operations staff is prepared to brief the COMOR at a time selected by the COMOR. Any operational or technical data required by the COMOR will be presented.

3. It is requested that the COMOR provide OSA/DDR with the type of information that it desires. A briefing pertinent to the questions will be prepared and given shortly thereafter.

(Signed) Jack C. Ledford
